

The Graduate Students Question presents the political and social philosophy underlying the authors Utopian quest. **SOCIAL THEORY:** Societies are collections of cultural practices. Culture is represented in the remembered beliefs, habits and rituals which guide each persons behavior. People practice many different cultures. Each culture develops its own standards during its evolution, which need not conform to any general standard. Human cultures can even defy environmental limitations for a while. This raises the question, which human cultures meet human needs and desires? **POLITICAL THEORY:** The Ideal State is a modern invention, founded on the French Revolutionary slogan: Liberty, Equality Fraternity! Realizing an Ideal State requires arranging the government, society and economy along democratic and communitarian lines. The Welfare State as practiced in Europe and Canada, but not in the United States, is based on a conception of the Ideal State. The Ideal State is inconsistent with unfettered Capitalism and most Social Contract theories, because, above all, the Ideal State provides for human welfare, not fulfillment of abstract principles. The Ideal State is not a machine, but changes its form and function as circumstances and human judgments require: it is a flexible container of human societies. The Ideal State lasts longer than other forms of government because it is not rigid. It is less likely to collapse because its citizens are more socialized and mindful of their environment. While rigidly structured societies can last a long time, they are likely to shatter when confronted with changed conditions and severe problems. **HISTORICAL THEORY:** Societies rise and fall. Collapse can be postponed for a long time, if people choose to live in accord with Nature. This requires knowledge of Gaia, our biological planet, and the wisdom of self-control. When people abuse the environment, lack social conscience and do not regulate themselves, Darwinian factors eventually exterminate them. The regulated, social democracy of the Ideal State is a good plan for societies seeking long term survival.

The Big Empty: Dialogues on Politics, Sex, God, Boxing, Morality, Myth, Poker and Bad Conscience in America, La Peste, Tyranny Unmasked, Infection: Double Helix : #1 (Star Trek: The Next Generation Book 51), Mint Juleps, Mayhem, and Murder (An Ellie Avery Mystery Book 5), What Christians Should Know about the Qura[â€šÂ¬&acir: Evidence from the Qur//an & Tradition of Prophet Muhammad, SQL Server 2000 for Experienced DBAs, Ideas for Great Garden Decor, Drone Real Estate: Sell houses faster with drones, Age is Just a Number: What a 97 year old record breaker can teach us about growing older,

Talk to current graduate students in your lab (even better, working with your potential adviser!) I want to add three important questions.
